2500 I/O Elite

This boat may have you changing your tune on "toons."

www.GodfreyPontoonBoats.com

This 25 1/2-foot tri-toon fairly defines the luxury pontoon with hallmarks such as richly upholstered settees in the cockpit and bow, a removable dining table, a captain's seat and a galley station abaft the helm.

However, the most innovative interior element is the convertible aft "island" lounge that inclines, reclines and folds out into a spacious sunpad. It also serves as the engine cover and includes a changing room. Integral to this lush structure are specially placed speakers. Godfrey Marine engineers worked with Jensen Marine sound system engineers in designing the entire Elite package interior elements to create an incomparable amphitheatre experience. As we moved about the pontoon, we could not find a musical "dead zone."

While you may not consider a pontoon boat a real contender when it comes to style, this boat may have you changing your tune on "toons." It is a trendsetter, and that earned it a Trailer Boats 2010 Excellence in Design Award in the Styling category.
